SUMMARY

Detail-oriented Full-Stack Web Developer with proven experience building responsive, user-friendly web applications. Specializing in modern JavaScript frameworks including React, Next.js, and Node.js with expertise in both front-end and back-end development. Demonstrated ability to create interactive dashboards, integrate GIS data visualization, and optimize application performance. Committed to delivering seamless user experiences through clean, efficient code.

WORK EXPERIENCE

National Youth Service Corps (NYSC)

OEA Consult | June 2024 – May 2025 (Ongoing)

- Created interactive dashboards for data monitoring and analysis
- Developed an E-learning platform with user authentication and course management features.
- Implemented RESTful APIs for data exchange between client and server applications

Freelance Web Developer

January 2024 – Present

- Designed and implemented responsive web applications for various clients
- Collaborated directly with clients to translate business requirements into technical solutions
- Developed a comprehensive data collection dashboard with interactive interfaces using Next.js and Tailwind CSS

Web Developer Intern

OEA Consult | December 2023 - May 2024

- Migrated legacy JavaScript codebases to Next.js, reducing load times by 25%.
- Collaborated with design teams to create responsive websites focused on optimal user experience
- Integrated REST APIs to streamline data flow between front-end and back-end systems.

EDUCATION

2018 – March 2024

Federal University of Technology Akure (FUTA)

Bachelor of Technology in Remote Sensing and Geographical Information Systems

- Thesis on "Surface Temperature in Lagos state".

TECHNICAL SKILLS

- **Front-End:** React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS
- **Back-End:** Node.js, Prisma, MongoDB, REST APIs
- **Developer Tools:** Git, GitHub, VS Code, Figma, Yarn
- **Specialized Skills:** Dashboard Development, Responsive Web Design, GIS Integration, Remote Sensing Data Visualization
